## SUMMARY

Proactive and detail-oriented **Front-End Developer** with 3+ years of professional experience in building performant, scalable, and maintainable web applications. Strong expertise in **React**, **Next.js**, **TypeScript**, and **Redux**. Proven ability to design and implement secure and responsive user interfaces using modern web standards. Experience working in **Agile teams** and collaborating across distributed, multicultural environments. Passionate about delivering outstanding user experiences and contributing to robust, global-scale applications.

## TECHNICAL PROFICIENCY

- **Frontend:** React.js, Next.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap
- **State Management:** Redux, React Query, NgRx
- **API & Auth:** RESTful APIs, GraphQL, JWT, NextAuth.js
- **Testing:** Jest, React Testing Library, Cypress
- **Build & Tools:** Webpack, Babel, NPM, Yarn
- **Version Control & CI/CD:** Git, GitHub, Bitbucket, Jenkins, Docker, Vercel
- **Backend Exposure:** Node.js, Express.js, Python (Django)
- **Cloud:** AWS, Azure

## EDUCATION AND TRAINING

**Master of Science:** Data Analytics

01/2025

Berlin School of Business and Innovation - Berlin, DE

Electronics And Communication Engineering

07/2019

National Institute of Technology - Calicut, IND

## EXPERIENCE

**Senior Frontend Developer** / ANSRSource Pvt Ltd - Bangalore, IND

08/2019 - 09/2022

- Developed scalable web applications using React, Next.js, and TypeScript with a focus on clean, maintainable code.
- Implemented SSR and optimized SEO using Next.js.
- Created secure authentication flows using JWT and NextAuth.js.
- Integrated REST and GraphQL APIs with Redux-based state management.
- Maintained high test coverage using Jest and React Testing Library.
- Collaborated across global teams in Agile sprints, contributing to design and technical discussions.
- Participated in code reviews and mentored junior developers.
- Deployed applications via Docker and CI/CD pipelines with Vercel and Jenkins.

## PROJECTS AND ACHIEVEMENTS

ZenTask (Work in progress)

- A full-stack task management application built with React, TypeScript, Supabase, and Zod.
- Implements form validation using react-hook-form and zod, real-time updates via Supabase, and Redux for state management.

- Designed with responsive UI using Tailwind CSS and accessible, user-friendly interactions.
- 

## **CERTIFICATIONS**

- **Google Data Analytics Professional Certificate** (Coursera)
- **Microsoft Certified: Power BI Data Analyst** (Coursera)
- **Microsoft Azure Fundamentals (AZ-900)** (Coursera)
